

Outsourcing Series

Accounting & VAT Services

Described simply, outsourcing is the allocation of business processes to a specialist external service provider, which will often perform the task more efficiently.

Flexible by nature, it is ideal in times of transition, and can **add significant value** to a company's bottom line.

The business can rapidly adapt to change and challenges, whilst improving service levels and generating cost savings.

Key advantages of Outsourcing

Focus on core activities

Allows a company to focus on its strengths. Staff can concentrate on their main tasks; management team can attend to business growth strategy

Efficiency

A specialist service provider performs at greater productivity, efficiency and quality

Cost control

Helps control/reduce cost and allows the company to invest these savings into growth and value-creation

Continuity

Ensures a stronger level of continuity for specific functions, including a team of people to support, instead of one individual

Competitiveness

Allows a business to leverage knowledge/skills absent in the existing employee pool
